

# DILEESHA RAVISHAN

## Software Engineering | Intern

ravishan.dileesha@gmail.com | +94 71 310 8396 | Gampaha  
GitHub: Dileesha001 | LinkedIn: Dileesha Ravishan | Portfolio

### PROFILE

Motivated and detail-oriented Full-Stack Developer and Software Engineering undergraduate with hands on experience in developing dynamic web and mobile applications. Skilled in Python, Java, JavaScript, Typescript, Node.js, Express.js, React, PHP, MySQL, MongoDB, and Flutter with Firebase, with a strong foundation in Object-Oriented Programming (OOP) and database management. Passionate about building efficient, scalable solutions that enhance user experience and address real-world challenges. Interested in contributing to innovative projects and continuously expanding technical expertise in global software development environments.

### EDUCATION

**B.Sc. (Hons) in Information Systems (Undergraduate)** 2024 – Present  
*Sabaragamuwa University of Sri Lanka*

**GCE Advanced Level (Physical Science stream)** 2022  
*Bandaranayake College Gampaha*

### PROJECTS

**Capstone Project - Smart Grama Sewa | Group Project** 2026 Feb – 2026 Aug  
*The Digital Platform that Connects Grama Niladhari Officers and Citizens*

- **Description:** A comprehensive platform designed to modernize local government administration by enabling citizens to request civil certificates, submit grievances, and track applications online, while streamlining record management and approval workflows for Grama Niladhari Officers.
- **My Contribution:** Developed the AI chatbot module and Notification module of the web application. Integrated all modules to build a fully functional and optimized web application. Also contributed to database management using Firebase.
- **Technologies:** React.js, HTML, CSS, JavaScript, Node.js, Firebase, Figma, Express.js, Git.

**Galagama Gems | Group Project** 2025 June-2025 Dec  
*Official website for the imaginary jewellery shop called Galagama Gems*

- **Description:** A comprehensive e-commerce platform for ordering and renting custom jewelry, featuring an interactive online jewelry-making studio that empowers customers to design, visualize, and customize bespoke pieces before purchase.
- **My Contribution:** Designed user interface layouts and prototypes using Figma. Developed the jewelry packages module, allowing users to browse, customize, and select curated collections, such as bridal and wedding sets.
- **Technologies:** React.js, Vite, HTML, CSS, TypeScript, npm, Figma, Git.

**BOOKCASE Web Application & Dashboard | Individual Project** 2025-2026 June  
*Fully functional e-commerce platform for a bookstore called BOOKCASE*

- **Description:** BOOKCASE is a state-of-the-art, luxury online bookstore web application crafted with pure HTML5, Vanilla JavaScript, and advanced CSS3 design systems. Featuring dynamic GSAP animations, a dual-theme system (Obsidian Gold & Emerald Sage), 3D book showcases, real-time stock indicators, and full multi-tier mobile responsiveness.
- **Technologies:** React.js, HTML5, CSS3, JavaScript, GSAP3 Git.

**BOOKCASE Mobile Application | Individual Project** 2026 April-2026 June  
*Mobile version of BOOKCASE web application*

- **Description:** BOOKCASE is a state-of-the-art, luxury online bookstore mobile application crafted with React Native to deliver a seamless, native-grade iOS and Android experience. The application features fluid, gesture-driven animations, an elegant dual-theme system (Obsidian Gold and Emerald Sage), interactive 3D book showcases, real-time stock indicators, and an intuitive, highly optimized user interface tailored for all modern smart devices.
- **Technologies:** React Native, expo, Vite, JavaScript, Git.

**DPR Mini Games | Individual Project** 2026 Jan-2026 July  
*Collection of mini games based on Python.*

- **Description:** DPR Mini Games, a premium collection of interactive games. The project features two different implementation types: lightweight Python command-line (CLI) games and a modern, standalone desktop application built with Electron, Vite, and Web Audio API. It contains NumberGuess, HangMan, MiniCricket and TestCricket as games.
- **Technologies:** Javascript, HTML, CSS, Python, Vite, Electron, Git.

**CryptAPP | Individual Project** 2026 June-2026 June  
*Collection of mini games based on Python.*

- **Description:** CryptVault is a modern, premium, cross-platform file encryption application built with React Native and Expo. It provides military-grade security to encrypt and decrypt files using cryptographically secure 256-bit Fernet keys or custom passwords, wrapped within a sleek glassmorphic dark interface.
- **Technologies:** Javascript, HTML, CSS, Python, Vite, Expo, React.js, Git.

## TECHNICAL SKILLS

---

- **Languages:** Java, PHP, Python, Dart, JavaScript, TypeScript
- **Frameworks/Technologies:** ReactJS, ExpressJS, Laravel, Next.js
- **Web Technologies:** HTML, CSS, Firebase, Tailwind CSS
- **Mobile Development:** Flutter, Vite
- **Database Management:** MySQL, MongoDB
- **Version Control:** Git & GitHub
- **Design Tools:** Figma, Photoshop, Illustrator, Canva

## SOFT SKILLS

---

- Leadership & Team Management
- Teamwork & Collaboration
- Problem Solving
- Communication
- Time Management
- Event Coordination & Organization
- Adaptability

## CERTIFICATES

---

- HTML, CSS, Java & JavaScript: Full Stack Programming Course from Sara Academy on Udemy. [!\[\]\(815df092dd722ee9268ef8e6d0193e3a\_img.jpg\)](#)
- Python for Beginners by Center for Open & Distance Learning (CODL) University of Moratuwa, Sri Lanka. [!\[\]\(c72edb9626cad660f3a9f5fb0f22a68c\_img.jpg\)](#)  
(Credential ID BuAq5z0Ujv)
- Web Design for Beginners by Center for Open & Distance Learning (CODL) University of Moratuwa, Sri Lanka [!\[\]\(0c564128c6342bd2f601e97f4518828a\_img.jpg\)](#)  
(Credential ID bWam4g6wOL)
- Python OOP: A Complete Course in Object Oriented Programming. [!\[\]\(5cb79a1c9acdf5d94bce345803852578\_img.jpg\)](#)
